DARK MATTER CONSULTING

Executive Coach and CEO

Extraordinary leaders have always had a guide to help them become their best. In the past, or in books or movies, that may have been a shaman, or a wizard, or a priest. Today's best leaders have an outstanding Executive Coach.

Dave Kaiser has been guiding leaders to become extraordinary since 2004. His clients get increased confidence and productivity, greater reward and fulfillment, and less stress and heartache. Their organizations get better leadership, higher employee engagement, and reduced conflict and turnover, for bottom-line results.

Dave's insight will challenge your leaders to see past their problems, clarify their vision, and find inner (often spiritual) resources for growth and leadership. He will also call them on their bullsh*t and get them out of their own way. Lastly Dave will offer both support and accountability as the Client moves out of his or her comfort zone and onto the Hero's Journey to a new and higher level of performance and fulfillment.
